Those who were present witnessed one of the best performances ever put up by any follower of the "scatter gun." Mr. J. "Giants" Defeat "White Swans."

In a fast and well-played game yesterday the "White Swans" suffered defeat at the hands of the Giants. At the beginning of the fifth inning it looked as if the Giants were going to get whitewashed. Not a run was scored for the Giants tartled to land their hits. In the fourth inning the score stood 2 to 9 in favor of the Swans. But after the Giants scored five runs in the fifth inning the score did not look so had. Not a run was scored again until the eighth inning the score did not look so had. Not a run was scored again until the eighth inning, when the Giants again began to hit the ball, and at the beginning of the mind inning the score stood to 9 in favor of the Giants. The score would have been smaller, in the White Swans favor, had the Giants made towe errors. Four errors in the third inning cost the Giants four runs, otherwise the game was all to the good.

One thing is certain, after Waterboy's great race Monday, when he carried 127 pounds in track record time, it will take a beating to convince any castern man that he can be defeated by McChesney or any other horse now running. It is true that Alec. Shields announces his readiness to back Hunter Raine, who ran second in the Saratoga Handleap, against Waterboy, at even weights, at anything from a mile and a quarter up, but it is doubtful if there is anybody besides Mr. Shields who takes such a proposition seriously, Indeed, when it is considered that Waterboy gave Hunter Raine twenty pounds and a beating, why should they?

On Monday the elder Schorr was asked if he wished a box for the seasop. "No." he replied, "not with \$75.00 of forfeits to make good." "Your son has taken one," he was told. "Yes," responded Mr. Schorr, "but I'm not so fortunate in having a rich father."

Frederick Gobhard has decided to strengthen his stable and go in for racing again as he did a score of years ago, when his colors were seen on many good horses in most of the big events, He has purchased Ragian and has several other good ones under consideration.

Ragian is a half sister to Gunfire, winner of the Metrogolitan Hundicap this season, and of Trigger, who is now at Silver Brook Stud. She did not come to hand early this season, but won at Sheepshend Hay like a filly of class, and was at once proclaimed one of the most likely fillies of the year.

Mr. Gebhard's return to racing on a more extensive scale will cause pleasure. He is a sportsman of high class.

He is a sportsman of high class.

Jimmy Rowe has discovered a new jockey whom he thinks will make a good one. He is Geo. Howe recalls the fact that he also piloted his first mount under the wire a winner.

that Waterboy gave Hunter Rume twenty pounds and a beating, why should they?

The first week at Saratoga has been disappointing. The rain during the greatpract of the week affected the attendance, the sport and the betting. The track has been so soft that it has been next to impossible to have a race run to form, and, besides, the conducton of the track has cut down the fields. This in turn has made the betting public light shy of the gentry of the high stools. John A. Drake is reported to have made a killing on Sensation on the opening day, but outside of this the storles of big betting current last year at Saratoga have been missing, and the bookmakers are reported to have lost money. However, it is probable this will all be changed when the track dries out and the horses have gotten down to their knitting.

"Plitsburg Phil," who is at the track ready for business, and who, by the way, is credited with having contributed considerably to the bank rolls of the layers of odds, spoke a parable a day or two ago.

He said that the horses that have been

of odds, spoke a parable a day or two age.

He said that the horses that have been induliged by resting at Saratoga are bad betting propositions as a whole.

The horses that have been here for a week or two have grown fat and improved more in their weight than they have in rueing ability. And it is logical. Horses come hore and fatten up so quickly that when they try to race they are short of work. This favors all horses that have been racing continuously. In a week or two horses that are beaten to-day will run very differently after they have had a race or two. It is the climate, so "Pittsburg Phil" claims, that is so invigorating that it is deceiving to trainers. They think their horses are good because they act good, but they can-

trainers. They think their horses are good because they act good, but they cannot stay. Stamping Ground, Rostand and King Pepper are living examples of this theory, in the Alabama, stakes, Stamping Ground, Gravina and Astarita, which filled all the positions, are horses that have not been abided. They have been racing all the year and the result was that horses like Girdle, Rockmart, Wild Thyme, Judith Compbell and others were left far in the rear.

Jampbell and others were lett far in any lear.

There seems to be a disposition on the part of the Saratoga track officials to hold the Jockeys to a strict accountability. This is a good thing, and will, if adhered to, inpre-to-the henceft of the sport. On Wednesday Bullman was set down for a day and fined \$10, and Fuller was fined for furning work, at the post, An occasional dose of this medicine will do no harm. occasional dese of this medicine will do no harm.

William C. Whitney, the big man at Seratoga, has fared badly so far. His bed luck began in the opening race, when Leonora Leonora Leonora Leonora Leonora Leonora Leonora for the occupant of the foot in the Hash stakes, while Gold-sulth and Gunfre were out of the money of the manicap. The same was true of Girdle and Judith Campbell in the Alabama Stakes, while other races have failed to show the light-blue and brown cap in front, Mr. Whitney takes his reverses easily, however, and is confident he will have a look-in later.
